

# 试验分析、评估与R @ebay

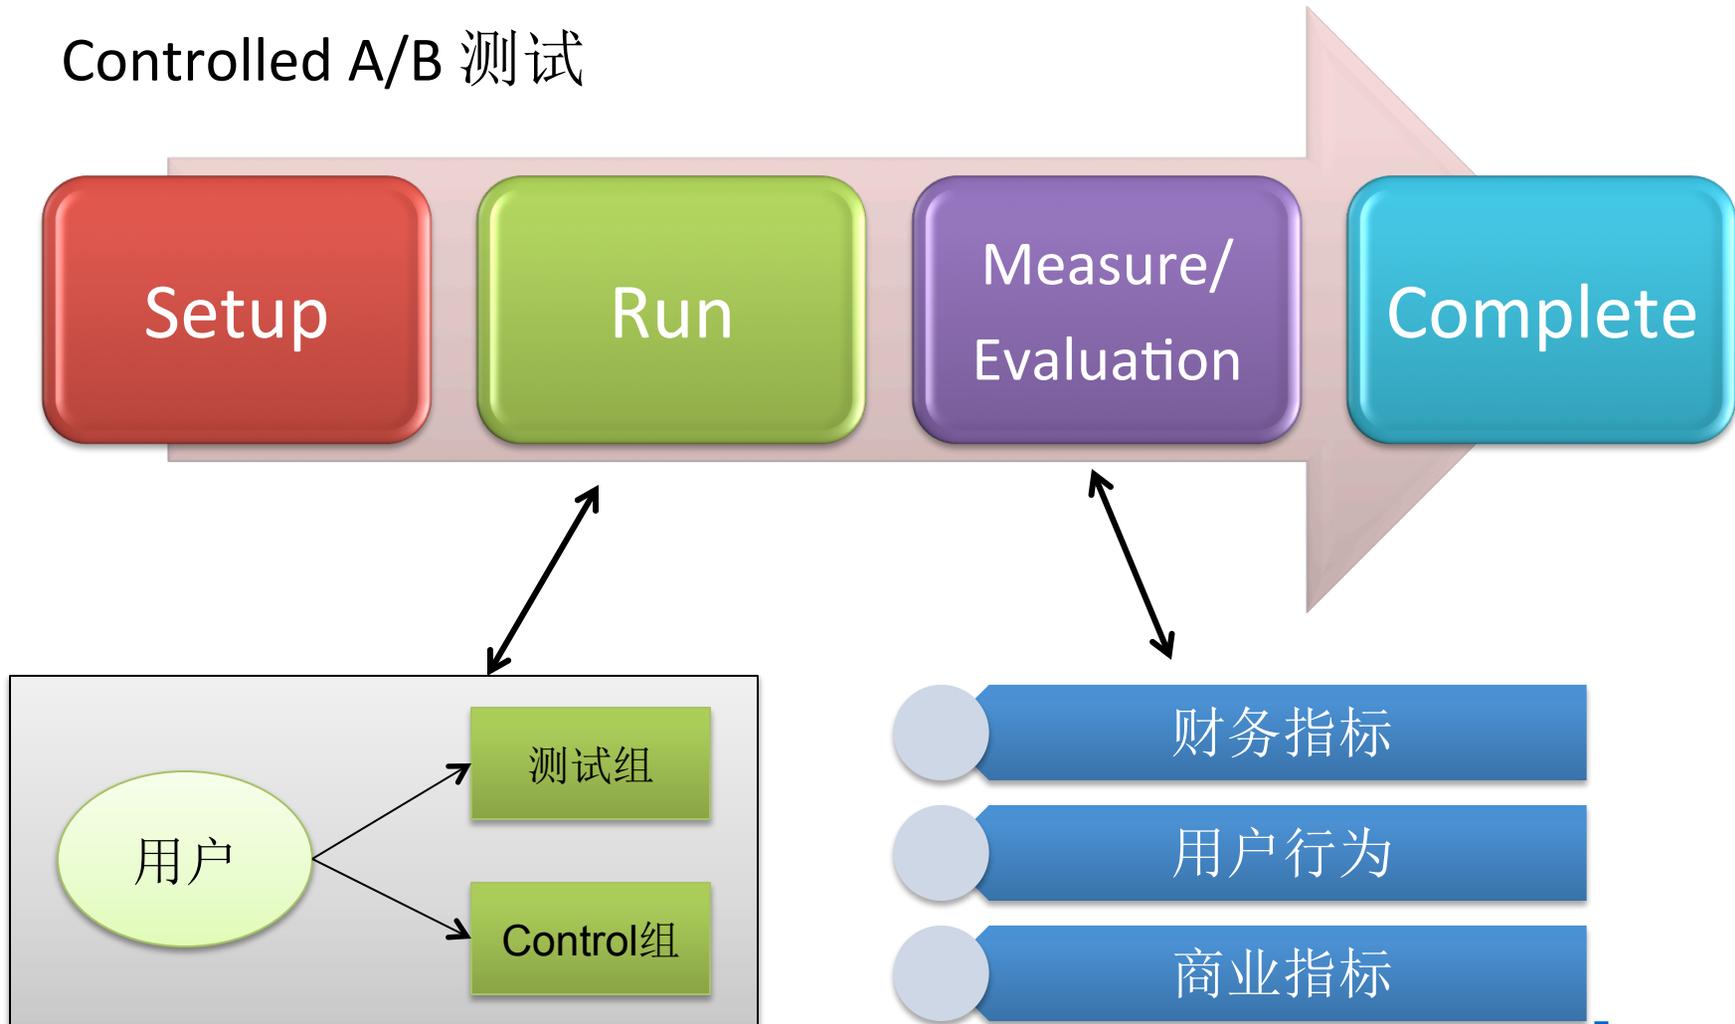

周春英

Senior Data Analyst, Search Science  
COE, ebay

# ebay Experiment Platform

Controlled A/B 测试

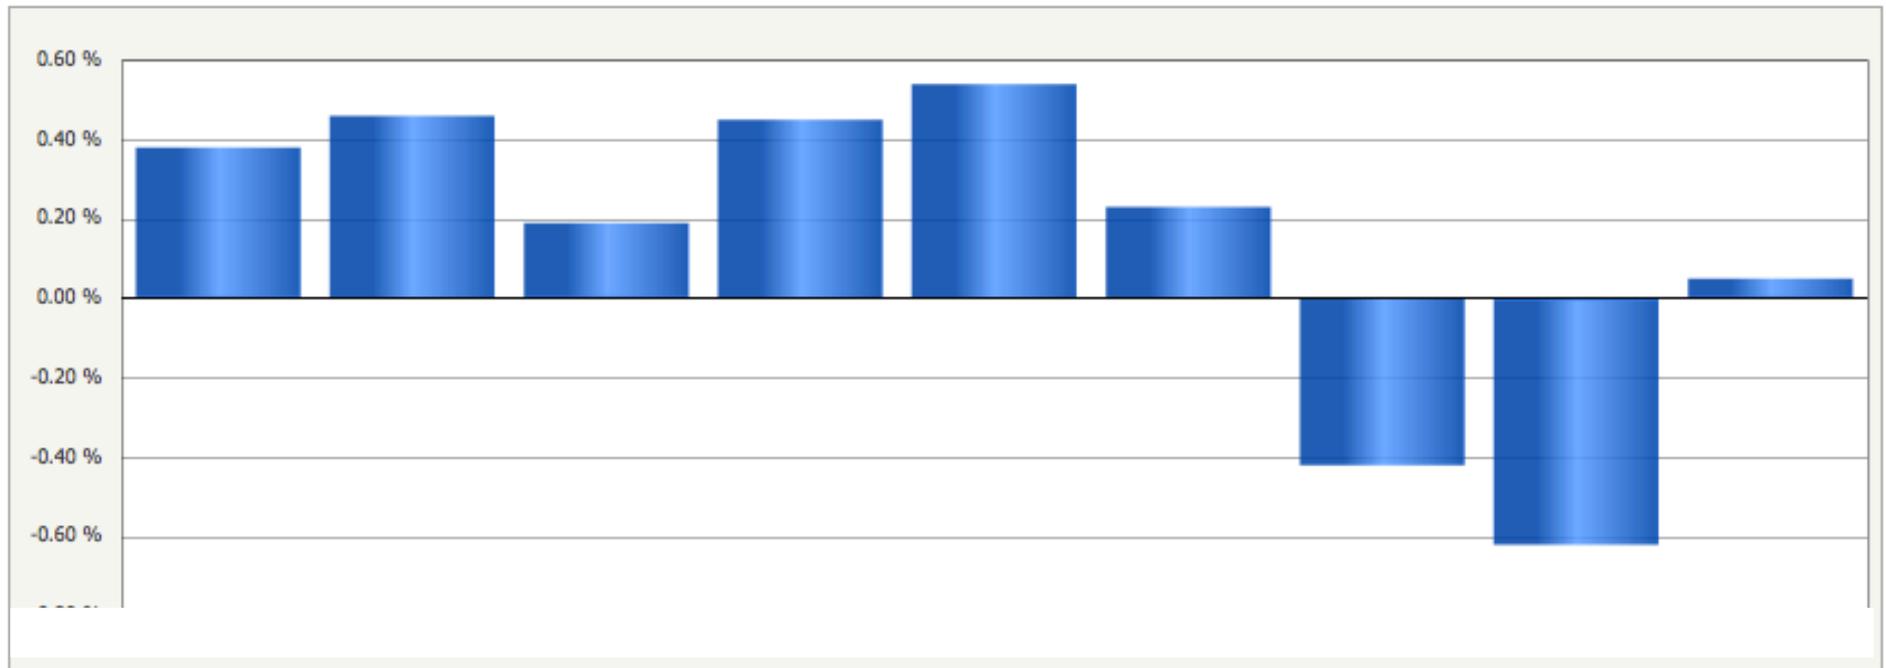

# Evaluation Metrics

- 财务类指标
- 用户行为指标
- 商业指标

# Why Need Confidence Interval?

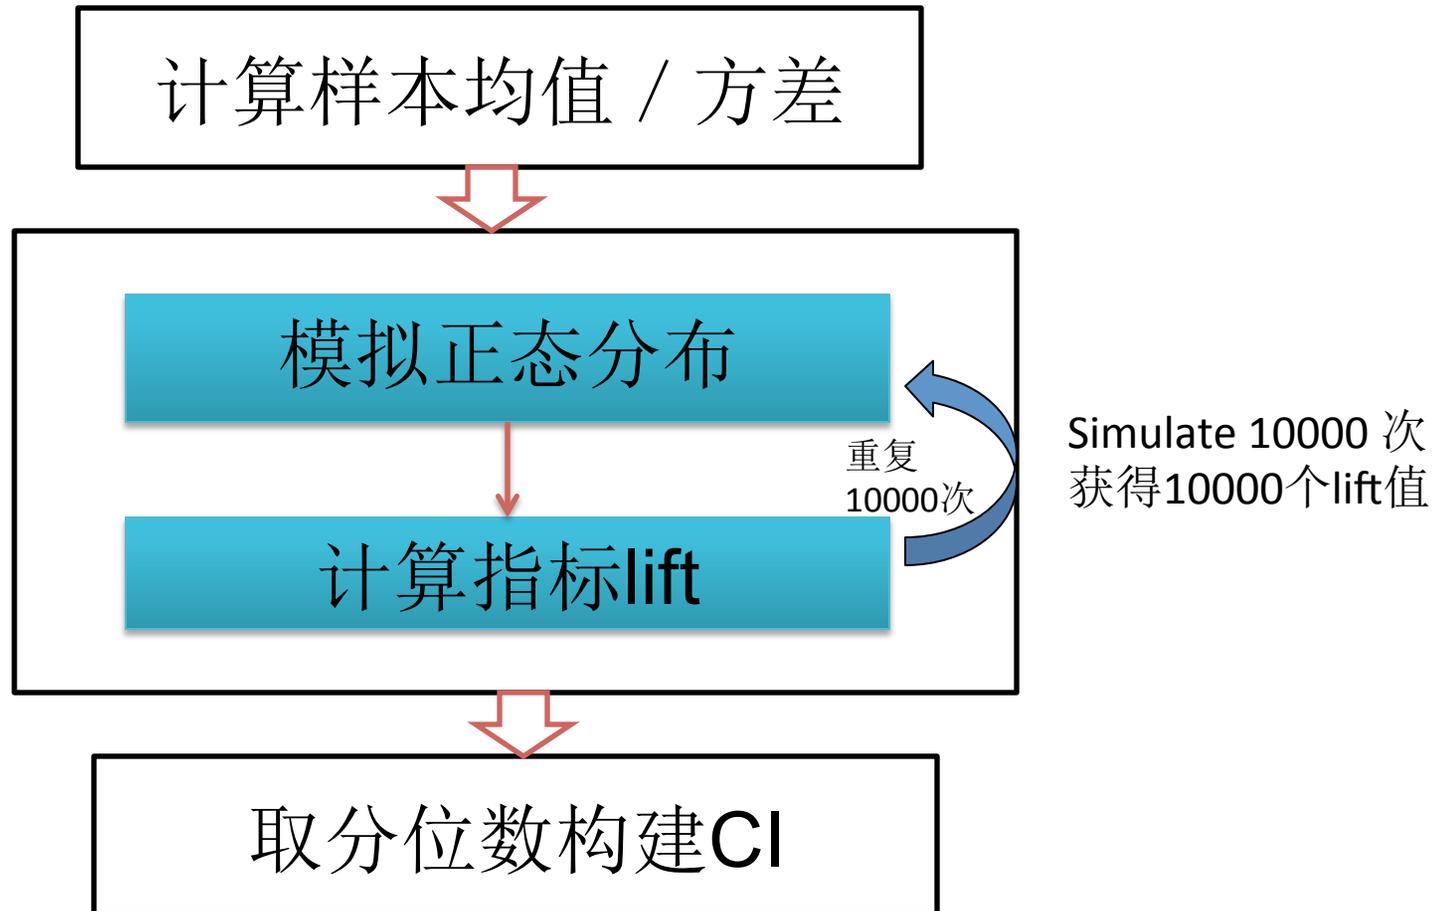

- 和对比组比较，试验A在某一个指标上有0.45%的增长，那么可以评定试验A的算法是优于control组吗？
- Answer: No!

# Distribution

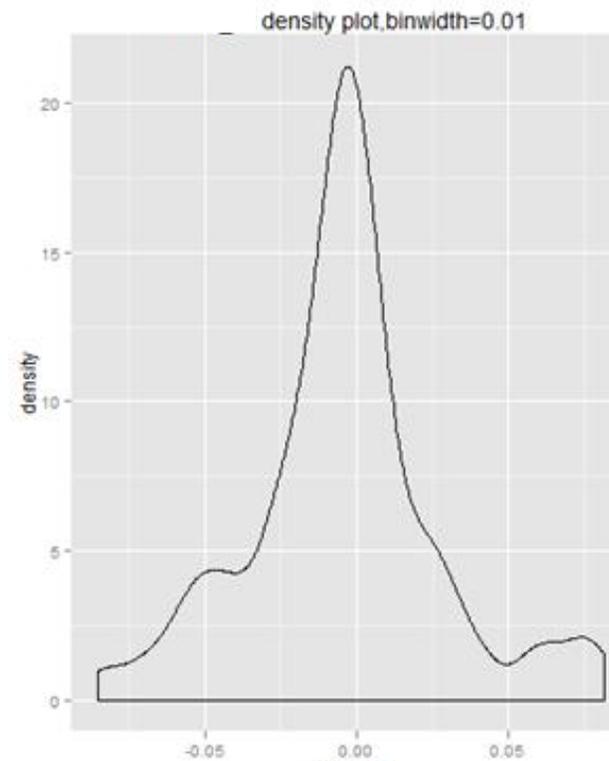

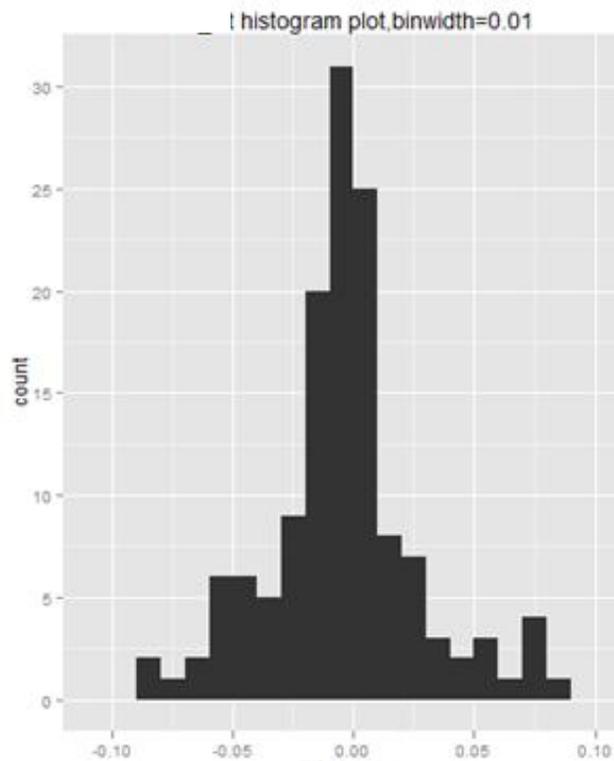

# Simulation to Construct Confidence Interval

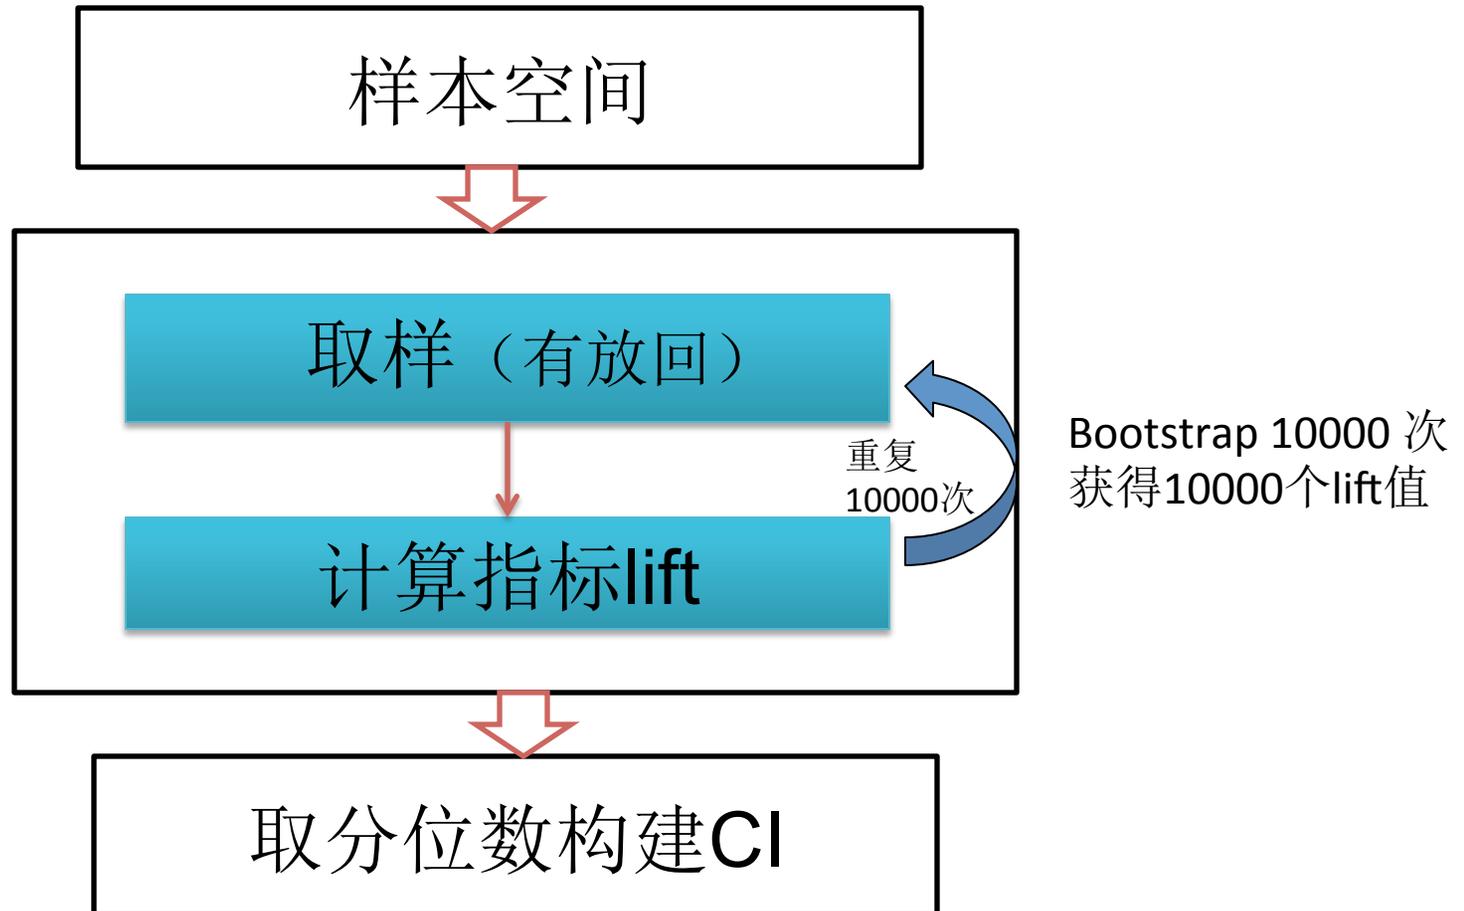

# Bootstrap

- 财务类指标
- 时间相关的用户行为指标

# Bootstrap to Construct Confidence Interval

# Confidence Interval Tool

## Confidence Intervals for A/B Tests

This tool support CIs for cumulative dailies of GUID based A/B tests. It requires an Experiment ID and one or more Treatment IDs and generates an email with CI plots for key behavioral and financial metrics. Users can choose to remove or retain outliers.

- Check on "Outlier Removal" to use outlier removed metrics.
- Check on CI with you want (90% is default value).

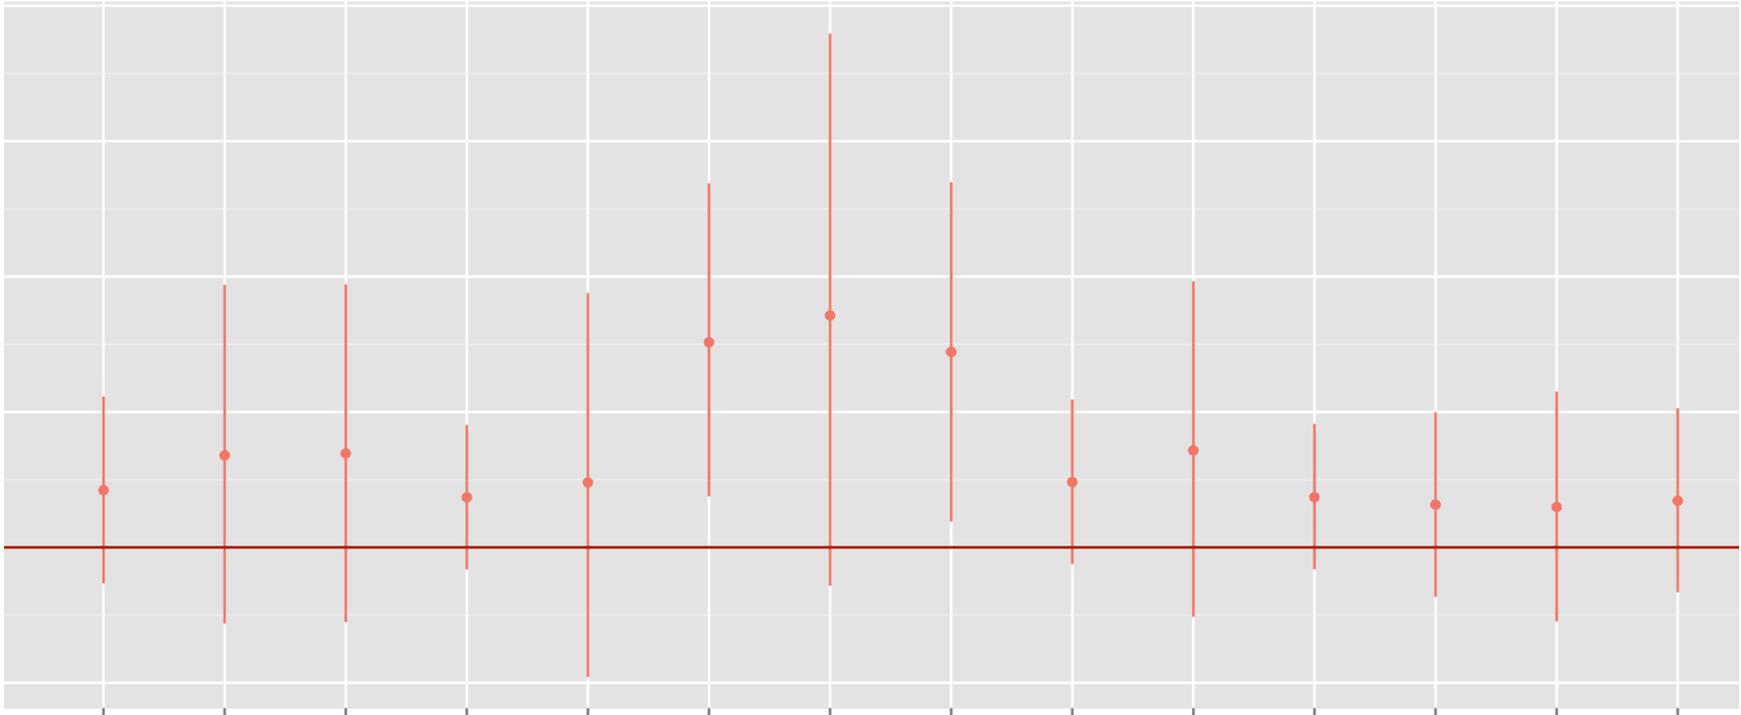

**Step 4 – Others**

**Outlier Removal**

**Add Vertical Report**

**CI Width**  
 80%  90%  95%  99%

# Confidence Interval Tool

# R 扩展包

- 平台
  - ‘RJDBC’：用于连接Teradata
  - ‘snowfall’：解决海量数据的计算问题
- 统计方面
  - ‘nortest’：正态性检测
  - ‘boot’：bootstrap，取样
- Others
  - ‘ggplot2’
  - ‘sqldf’
